Wage Adjustments (Job Aid 3)

Store Directors/Schedule Writers are able to adjust the wage rate above or below the target wage rate for **departments** and **auto-scheduled jobs**.

All wage rates are based on last week actual wage rates (excluding overtime).

Process

In this scenario, the store will adjust the wage rate for **301 Grocery** to reflect a higher wage rate of using more senior employees in the **department**.

For departments that are auto-scheduled you can adjust the wage rate for specific **jobs within the department (EX: Checker, Checker SCO, Coffee Clerk, etc.)**

The store will also adjust the wage rate for **347 Checker** to reflect a higher wage rate of using more senior employees in the **job**.

After adjusting the hours, you will need to re-calculate the hours.

From the main menu:

1. Go to the Target Wage Adj tab.

Target Wages Adj

2. Select the **Filter** icon. A selection window will appear.

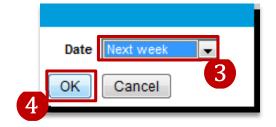

3. Change the Date settings to **Next Week** using the drop down option.

4. Click **OK**. The screen will return to the Wage Adjustments page.

You can also use the filters for each list of **wage rates** to view **historical wage rates** by selecting the **Filter** icon.
